## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

The vision of ScholarPlus will be a caring, diverse, and supportive learning environment in which all are committed towards working in relationships to foster innovative and creative learning opportunities. The mission of ScholarPlus is to create high quality relevant learning opportunities for all in a safe and caring environment. We will develop a high quality, caring staff who will be dedicated to learning, and connect students to their education and potential goals. We will care for all students while developing a growth mindset through collaboration, creativity, communication, and critical thinking.

Our site has adopted four goals. The first goal is that all students will attain proficiency in all academic areas. The second goal is that all students will graduate from high school prepared for post-secondary and career options. The third goal is that all departments and sites will provide a safe and positive learning environment for all students and staff. Our fourth goal is to secure and strengthen home-school-community connections and communications. All activities implemented fall under each goal.

#### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2021-22 data was not included as part of the initial release of data on 1/13/23. The CDE has indicated that the data will be available after the 2/1/23 SARC deadline. The data will be populated when it is published by the CDE.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## 2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All textbooks used in the core curriculum at ScholarPlus Online Learning Academy are aligned to the California Common Core Standards and Frameworks. Standards-based instructional materials are approved by the district's Board of Trustees. The district follows the State Board of Education's six-year adoption cycle for core content materials and the eight-year cycle for textbook adoptions in foreign language, visual and performing arts, and health.

On September 21, 2022 the Perris Union High School District's Board of Trustees held a public hearing to certify the extent to which textbooks and instructional materials have been provided to students. The Board of Trustees adopted Resolution No. 5:11-12 which certifies as required by Education Code §60119 (1) that textbooks and instructional materials were provided to all students, including English learners, in the district to the extent that each pupil has a textbook or instructional materials, or both, to use in class and to take home, (2) sufficient textbooks and instructional materials were provided to each student, including English learners, that are aligned to the academic content standards and consistent with the cycles and content of the curriculum frameworks in math, science, history-social science, and English/language arts, (3) sufficient textbooks or instructional materials were provided to each pupil enrolled in foreign language or health classes, and (4) sufficient laboratory science equipment was available for science laboratory classes offered in grades 9-12 inclusive.

In addition to core subject areas, districts are required to disclose in their SARCs the sufficiency of instructional materials used for their visual/performing arts curricula. During the 2021-22 school year, Perris Union High School District provided each student, including English learners, enrolled in a visual/performing arts class with a textbook or instructional materials to use in class and to take home. These materials complied with the state's content standards and curriculum frameworks.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

We offer a variety of programs and meaningful opportunities to support students' college and career development. Our site has contracted with Think Together to hire a coordinator for the site. Our coordinator's primary responsibility is to provide daily work development workshops for all students. He provides workshops in resume writing, filling out job applications, dressing for the interview, and mock interviews. Students can also participate in work experience. Students are required to maintain a 2.0 GPA in order to acquire the work permit. Our Think Together Coordinator and a certificated staff member work with our students throughout the process.

Our site participates in the district-wide Kick off to College (KOTC) activities during October. This is a school-wide event and all students participate in all workshops scheduled. We partner with local businesses, community colleges, universities, and vocational programs to schedule guest speakers. Our local business guest speakers present pertinent information related to their field, the education and certification required, potential salaries, and job outlook. Our college and university speakers present information regarding the school, degree opportunities, and financial aid. We schedule monthly field trips to local colleges, universities, and vocational programs to provide students an opportunity to tour the campus, review degree programs, and meet with school representatives.

Upon enrollment, all students and parents meet with the counselor to complete a credit analysis and discuss post-graduate plans. All students general education, 504, and students with disabilities are monitored. Student progress is monitored throughout enrollment to ensure academic success of all students. Parent bi-weekly meetings are scheduled with the supervising teacher to monitor students' progress, identify areas of strength, and identify interventions if needed. 504s and IEPs are reviewed annually and when needed.

Dian Martin, Director of Categorical Funding is the representative for district's CTE advisory committee. Industries represented on the committee include the Perris Union High School District and Judy Mountain, Perris Valley Printing serves as our Chairperson.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

Parents involvement is a crucial component to our site. Parents and students are invited to a program orientation before enrollment. Administration will provide an overview of the program, review expectations, and answer questions. In addition, teachers will provide a demo lesson on the learning platform explaining log-in procedures, note taking, test taking expectations, assignment completion, and grading. Parents and students will then meet the counselor for a credit analysis, creation of a schedule, and post graduate planning.

Once the student is enrolled, parents are required to meet with their student's supervising teacher on a bi-weekly basis to review their student's progress. Parents may meet with the supervising teacher via: face-to-face, telephone, or via google hangout conferencing. Other opportunities for parent involvement include monthly meetings: Coffee with the Principal, the Western Association for Schools and Colleges (WASC), and Parent Engagement Leadership Involvement (PELI)/African American Parent Advisory Committee (AAPAC). Parents are also encouraged to attend field trips and onsite special events such as our Youth Mental Health First Aid Workshops and Night of Hope. These events provide students, parents, and families with the education and resources regarding mental health.

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	0.00	4.43	2.45
Expulsions	0.00	0.20	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

The school site plan includes four major sections which include; school and district philosophy statements, assessment of current status of school crime committed on school campus and at school related activities, identification of appropriate strategies and programs that provide or maintain a high level of school safety, and recommendations for improvement. The plan was rewritten in collaboration of staff and administration during the 2020-21 school year. The plan was reviewed with the staff and approved by the school site council in March of 2021. The plan was then presented to the board for final approval.

## 2019-20 Secondary Average Class Size and Class Size Distribution

This table displays the 2019-20 average class size and class size distribution. The columns titled “Number of Classes” indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

## Professional Development

Our site's primary focus/major areas for staff development are our four site and district goals which include; student assessment, student data and interventions, post-secondary planning in college and career, safety, and family engagement. We also focus our training on standards for online learning, independent study, and personal/social student support.

Professional development opportunities are scheduled before and during the school year. In addition, professional growth opportunities are scheduled throughout the year at the Student Service Center and at the site. Staff is also provided opportunities to attend workshops and conferences outside the district based on need and interest. All staff district wide participated in Professional Learning Community workshops each year. Other areas of training for the site included the annual California Consortium for Independent Study conference in November. Site visits to local online schools in Riverside and San Bernardino Counties were also scheduled during the first and second semester.

The staff is supported in their professional development throughout the year during professional learning communities (PLC), scheduled collaboration time, teacher-principal meetings, teacher-to-teacher collaboration, support staff-teacher meetings, and counselor-teacher collaboration. Student data is reviewed weekly during PLC to review student progress and identify student interventions to support student learning.

This table displays the number of school days dedicated to staff development and continuous improvement.
